

Take a Walk on the Wild Side

Become an FAU Friend and Neighbor of DuPuis and support Environmental Science and Education Programs for students, teachers and adults in our community.

Tucked away on the edge of western Palm Beach and southern Martin counties is one of the region's most valuable natural resources. The DuPuis Management Area, a South Florida Water Management District property, is comprised of 21,875 acres of pasture, pine flatwoods and cypress swamps, which were purchased in 1986 through the Save Our Rivers program. DuPuis offers a wide range of recreational opportunities including hiking, camping, hunting, fishing and horseback riding.

FAU's Center for Environmental Studies (CES) has been working in partnership with the SFWMD since 2000. CES coordinates a comprehensive environmental education and outreach program at DuPuis. The program includes Student Field Studies, Student Service-Learning, Teacher Training, Nature Lectures and Special Events for the local community.

Join FAU Friends and Neighbors of DuPuis today!

Join **FAU Friends and Neighbors of DuPuis** and have the satisfaction of knowing that you are helping to educate students, teachers and visitors about South Florida's "big backyard" and the preservation of natural resources. Your tax deductible donation can help make a difference!

In addition to supporting DuPuis' environmental science and education programs, you will receive an annual e-newsletter and invitations to special events.

Complete this registration form and pay via credit card or check payable to FAU Foundation. Submit completed form to:
