

André M. Daniels

□ Positions

- ▣ Fishery Biologist
- ▣ Dive Safety Coordinator/South Florida Safety Officer
- ▣ Motorboat Operator Certification Course Instructor (MOCC)

□ Research Interests

- ▣ Estuary and marine environments
- ▣ Seagrass communities
- ▣ Coral reef communities

□ When not at work

- ▣ Family fun!!!

A. Daniels Research Projects

Seagrass Communities (M. Robblee and S. Blair)

- Seagrass monitoring in the vicinity of POM dredging operations
- Impacts on faunal habitat

Bonefish (J. Rehage)

- Spatiotemporal patterns of angler bonefish catches.
- Water quality, climatic parameters, and seagrass and prey dynamics.

Water Quality (S. Bellmund and J. Browder)

- (Proposal being considered for funding) water quality investigation on seepage of cooling canal waters from Turkey Point into Biscayne Bay
