Prepared by: Peter Harlem, 2008 First allocation of federal tax dollars to move an entire community struggling with the impacts of climate change.

\$48 million for Isle de Jean Charles, Louisiana 60 People

Mark Davis, Tulane Institute on Water Resources Law and Policy

"If you have a hard time moving dozens of people it becomes impossible in any kind of organized or fair way to move thousands, or hundreds of thousands, or, if you look at the forecast for south Florida, maybe even millions." We can't stop the seas from rising.....

We better start talking and planning for what may become the most difficult and costly effect of Global Warming

Moving, relocating, re-educating and employing MILLIONS of coastal residents
