

Dedicated to perpetuating the agricultural, recreational, scenic, and historic values of the land for the enjoyment of present and future generations

Davie Trails & Open Spaces

Davie began preserving its open spaces and establishing its town-wide trail system in the mid-1980s.

Today, these recreational amenities are the primary characteristic that distinguishes Davie from the rest of South Florida, making our Town such a desirable place to live.

Town staff fostered formation of the Land Trust to increase local resources for land preservation.

DALT Timeline
